SYSTEM 250

POCKET REFERENCE BOOK

CONTENTS

	<u>Page</u>
Instruction Codes	3
ROS/PDOS Process Structure	5
ROS/PDOS State and Internal Priority Word	5
Process Dump Stack Format	6
Special Purpose CPU Registers	7
Internal Mode Addressing	7
CPU MK3 Indicator Names and Locations	8
CPU Display Address Functions	9
CPU Display Miscellaneous Register	10
COS Commands (300C1 onwards)	11
ROS Print/Patch Commands	13
ROS Maintenance Commands	14
POS (2MK2.1) Commands	15
Disc Controller Register Set	17
Magnetic Tape Controller Register Set	17
Line Printer Controller Register Set	17
Parallel Teletype Controller Register Set	17
Serial-Parallel Adaptor Register Set	18
Serial Teletype Controller Register Set	18
Serial Punch Controller Register Set	18
Serial Reader Controller Register Set	18
Backing and Initialising Store Control	
Unit Address Structure	19
Console Control Unit Address Structure	20
Exchangeable Disc System Address Structure	21
Magnetic Tape Controller Registers	
Command/Status/Diagnostic	22
Serial-Parallel Adaptor Registers	
Command/Status/Diagnostic	23

CONTENTS (Cont'd)

	<u>Page</u>
Disc Controller Registers	
Command/Status/Transfer Capability	24
Parallel Teletype Controller Registers	
Command/Status	25
Line Printer Controller Registers	
Command/Status	26
Serial Teletype Controller Registers	
Command/Status	27
Serial Reader Controller Registers	
Command/Status	27
Serial Punch Controller Registers	
Command/Status	27
Backing and Initialising Store Control Unit Registers	
Command/Status	28
Console Control Unit Registers	
Command/Operational Status	29
Secondary Status/Diagnostic	30
Exchangeable Disc System Registers	
Command/Status	31
Work Item/Work Status	32
Diagnostic 1/Diagnostic 2/Diagnostic 3	33
Exchangeable Disc System	
Bus Line Specification for CDC Drive Unit	34
The Transfer Capability	34
Transfer Capability Check Code	34
Last Sector Address	34
Character Code	35
Powers of Two	35
Octal-Decimal Conversion Table	36
NOTES
